

Ruturaj Vidhate

Software Developer | Python/Django | Node.js/Express | REST APIs | React.js

Pune, 411033 | +91 8999758738 | ruturajvidhate5656@gmail.com | github.com/Ruturaj5191 | linkedin.com/in/ruturaj-vidhate1

PROFESSIONAL SUMMARY

Full Stack Developer with **1+ years** of professional experience building **production-grade** web applications across fintech, SaaS, and payment platforms. Skilled in designing secure **REST APIs** using **Python/Django** and **Node.js/Express.js** with **JWT** authentication and **Role-Based Access Control (RBAC)**. Delivered **30+** API endpoints across 3 production applications serving real users. Currently building the **Finance Bazar** financial services platform at Umbarkar Technology, driving backend architecture, frontend integration, and performance optimisation using **React.js**, **MySQL**, and **MongoDB**.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, Java, HTML5, CSS3

Frameworks: Django, Django REST Framework (DRF), Node.js, Express.js, React.js, React Native

Databases: MySQL, MongoDB (NoSQL)

Styling: Tailwind CSS, Bootstrap 5

Architecture: RESTful APIs, JWT Authentication, RBAC, MVC/MVT, OOP, Async/Await

DevOps & Tools: Git, GitHub, Docker, Postman, Jenkins, Vercel, Render

Methodologies: Agile/Scrum, Code Reviews, CI/CD Workflows

PROFESSIONAL EXPERIENCE

Software Developer | Umbarkar Technology Pvt. Ltd., Pune *(March 2026 – Present)*

Tech Stack: Python, Django, DRF, Node.js, Express.js, React.js, TypeScript, JWT, MySQL, MongoDB

- Engineered **full-stack** features for **Finance Bazar** ([GitHub](#)), a fintech platform managing end-to-end loan workflows, payroll processing, compliance tracking, and incentive management across Admin, HR, and Employee roles.
- Designed and secured **15+ REST APIs** with **JWT**-based authentication and granular **Role-Based Access Control (RBAC)**, reducing unauthorised access incidents to **zero**.
- Built a dynamic **Salary Slip** generation module with automated **PDF export**, integrating incentive calculations and multi-component earnings/deductions.
- Integrated **biometric face verification** using **face-api.js** for employee attendance, achieving **real-time** identity matching against stored facial descriptors.
- Participated in code reviews that improved API response structure and reduced average query response time by **~30%** on critical endpoints.

Full Stack Developer | WorknAi Technologies Pvt. Ltd., Pune *(November 2025 – March 2026)*

Tech Stack: Node.js, Express.js, React.js, React Native, MySQL, JWT, PaySprint API

- Architected and deployed a **Car Rental System** ([GitHub](#)) with **10+ REST APIs** managing vehicle booking, **real-time** availability tracking, and user account workflows, deployed on **Vercel + Render**.
- Developed the backend for **Pay India Studio** ([GitHub](#)), a **React Native** payment app processing transactions via **PaySprint gateway** with secure reconciliation and error handling.
- Implemented **JWT** authentication with refresh token rotation and session management, securing all user-facing endpoints.
- Defined API contracts collaboratively with frontend teams, reducing integration defects by **~40%** and shipping **2 weeks ahead of schedule**.

Python Developer Intern | A2Z IT Hub Pvt. Ltd., Ahilyanagar *(January 2025- July 2025)*

Tech Stack: Python, Django, Django REST Framework, MySQL, HTML5, CSS3, Bootstrap

- Built the complete backend for a **Shoes Billing Software from scratch**, delivering **CRUD APIs**, automated invoice generation with **PDF export**, and a custom admin dashboard used daily by the client.
- Developed a responsive business website for a **Glass & Grilling** company, featuring product catalogue, inquiry management, and SEO-optimised pages.

- Authored unit tests for **10+** API views using **Django** TestCase, increasing test coverage to **80%** and reducing regression defects by **~25%**.

ACADEMIC PROJECTS

E-Commerce Platform ([GitHub](#))

Tech Stack: Python, Django, DRF, MySQL, React.js

- Built a **full-stack** e-commerce application with product catalogue, shopping cart, checkout with order tracking, and separate dashboards for Admin and Customer roles.
- Enforced **RBAC** across **15+** API endpoints with role-specific access policies, ensuring data isolation between user types.
- Optimized **Django** ORM queries with **select_related()** and **prefetch_related()**, reducing database query count by **~40%** on product search endpoints.

Smart Key Management System ([GitHub](#))

Tech Stack: Node.js, Express.js, MySQL, React.js

- Developed a **full-stack** key tracking and issuance system with **real-time** status monitoring, automated overdue detection, and organisational asset management.
- Secured **20+** API endpoints with **JWT**-based **RBAC**, implementing granular access control for Admin Panel and Security Panel roles.
- Automated overdue key tracking using **Node.js Cron jobs** with scheduled notifications, eliminating manual daily audits and ensuring **100%** compliance.

EDUCATION

Master of Computer Application (Pursuing)

Siddhant Institute of Computer Application, Pune (2024 – 2026)

Savitribai Phule Pune University

Bachelor of Computer Application

New Art's Commerce and Science College, Ahilyanagar (2021 – 2024)

Savitribai Phule Pune University | CGPA: 8.63

CERTIFICATIONS

Full Stack Development Certification — A2Z It Hub Pvt Ltd Ahilyanagar (2024)
