PROFESSIONAL SUMMARY

Full Stack Developer specializing in Python, Django, Node.js, and React.js, delivering production-grade fintech and SaaS applications with clean, scalable backend architecture. Designed and secured 30+ REST APIs with JWT Authentication and RBAC across 3 live platforms, reducing unauthorized access to zero and improving query response time by 30%. Proven ability to ship real-world features from biometric attendance systems to automated payroll modules using Agile, CI/CD, Docker, and AWS.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL, HTML5, CSS
Frameworks: Django, Django REST Framework (DRF), Node.js, Express.js, React.js, React Native
Databases: MySQL, PostgreSQL, MongoDB
Styling: Tailwind CSS, Bootstrap 5
DevOps & Tools: AWS, Docker, Git, GitHub, Jenkins, Postman, Vercel, Render, Linux
Architecture: RESTful APIs, JWT Auth, RBAC, Microservices, MVC/MVT, OOP
Methodologies: Agile, Scrum, CI/CD

EXPERIENCE

Software Developer

November 2025 – Present Pune, India

Utech India Pvt. Ltd., Pune | Node.js, Express.js, RESTAPI, React.js, TypeScript, MongoDB

- Engineered full-stack fintech features for Finance Bazar — loan workflows, payroll processing, compliance tracking, and incentive management across Admin, HR, and Employee roles.
- Designed and secured 15+ REST APIs with JWT Authentication and granular RBAC, reducing unauthorized access to zero and cutting query response time by ~30%.
- Built Salary Slip generation module with automated PDF export and biometric face verification using face-api.js for real-time attendance and identity matching.
- Collaborated in Agile code reviews improving API response structure, backend scalability, and CI/CD pipeline efficiency across production deployments and Docker.

Python Developer Intern

January 2025 – July 2025 Ahilyanagar, India

A2Z IT Hub Pvt. Ltd., Ahilyanagar | Python, Django, DRF, MySQL, HTML5, Bootstrap

Built complete backend for a Shoes Billing Software — CRUD APIs, automated invoice generation with PDF export, and a custom admin dashboard used daily by the client.

- Developed a responsive business website with product catalogue, inquiry management, and SEO-optimized pages.
- Authored unit tests for 10+ API views using Django TestCase, increasing test coverage to 80% and reducing regression defects by ~25%.

ACADEMIC PROJECTS

E-Commerce Platform

Python, Django, DRF, MySQL, React.js | github.com/Ruturaj5191

- Built full-stack e-commerce app with product catalogue, cart, checkout, and separate Admin/Customer dashboards with RBAC across 15+ API endpoints.
- Optimised Django ORM using `select_related()` & `prefetch_related()`, reducing DB query count by ~40% on product search endpoints.

Smart Key Management System

Node.js, Express.js, MySQL, React.js | github.com/Ruturaj5191

- Developed full-stack key tracking system with real-time status monitoring, automated overdue detection, and JWT-based RBAC across 20+ API endpoints.
- Automated overdue tracking using Node.js Cron jobs, ensuring 100% compliance.

Car Rental System

Node.js, Express.js, MySQL, React.js | github.com/Ruturaj5191

- Built full-stack car rental platform with vehicle listing, booking management, and secure user authentication with role-based Admin/Customer access.
- Designed Admin dashboard for fleet management, booking approvals, and real-time availability tracking.

EDUCATION

Master of Computer Application

Siddhant Institute of Computer Application, Pune — Savitribai Phule Pune University

2024 – 2026

CGPA: 8.25

Bachelor of Computer Science

New Arts, Commerce and Science College, Ahilyanagar — Savitribai Phule Pune University

2021 – 2024

CGPA: 8.63

CERTIFICATIONS

Full Stack Development Certification — A2Z IT Hub Pvt. Ltd., Ahilyanagar

2024
